

MEMORANDUM

Date: December 17, 2019

From: Larry Lees, Mayor

To: City of Pryor Creek, City Council

Subject: Repeal of EDTA nomination, David Stewart

Dear City Council

During my deliberation and subsequent nomination of David Stewart as Trustee # 7 of our EDTA, neither he or I considered the fact that because he would both serve on the OOWA Board and the Pryor EDTA Board, a conflict of interest may be perceived. After careful thought, Mr. Stewart believes that it is the best interest of all involved to withdraw his nomination as an EDTA Board member.

Therefore, in consideration and respect for Mr. Stewart and his position I hereby request that our City Council repeal their nomination of David Stewart as Trustee # 7 of the Pryor EDTA Indenture.

In Mr. Stewart's words, "we must stay clear of perceived conflicts in order to keep the public trust of all involved. It is better to eliminate the opportunity for these issues to arise before we have them. However, I was looking forward to serving the citizens of Pryor alongside the other board members. A great opportunity exists for MAIP and the City to work together and I will continue our efforts in that regard."

I thank David Stewart for his consideration to serve publicly for the good of Pryor and her citizens. We are fortunate to have such a servant at the helm of MAIP.

Respectfully,

Larry Lees

MEMORANDUM

Date: January 3, 2020

From: Larry Lees, Mayor

To: City of Pryor Creek, City Council

Subject: EDTA Seat #7 Nomination, Larry Williams

Dear City Council:

Larry Williams has demonstrated admirable citizenship through family, community, and employment throughout his 40 plus year time of residency in Pryor. His tenure and outstanding performance as General Manager of Mid America Industrial Park brings the valuable perception and guidance to our Economic Development Trust Authority which we need and should consider.

I, therefore and without reservation, nominate Larry Williams for Seat #7 of the Pryor Economic Development Trust Authority.

Respectfully,

A handwritten signature in black ink, appearing to read "Larry Lees", written in a cursive style.

Larry Lees

LARRY WILLIAMS BIOGRAPHY

Larry Williams is General Manager of Oklahoma Ordnance Works Authority (MidAmerica Industrial Park). He is a 40-year plus resident of Pryor along with his wife of 46 years, Jo Ann. They have two grown daughters, Robbi Jo Duncan of Adair and Georgianna Renae Hostettler of Pryor. They have four grandchildren: Madison, Tyler, Ryan and Rayland.

A 1972 graduate of the University of Oklahoma with a BA in journalism, Williams came to Pryor as Advertising Manager of the former Pryor Daily Times and a short time later was named General Manager of the newspaper and its parent, Pryor Publishing Company. This small community newspaper group at one time held interests in the McIntosh County Democrat, Lake Eufaula Journal, the Coweta Times-Herald, the Wagoner Tribune, the Pryor Jeffersonian, as well as the local daily newspaper. Williams served as the managing partner for Pryor Publishing for 13 years.

In June of 1989 Williams took a position with the OOWA as Assistant to the Administrator working under Gene Redden, the founder of the MidAmerica Industrial Park. A year later, upon Redden's death and Sanders Mitchell's appointment as Administrator, Williams was named as General Manager of the OOWA, a position he has held for the past 30 years.

Williams' duties at OOWA have included oversight of daily operations with respect to water treatment plant, waste water treatment plant, outside maintenance and airport operations. He has also been deeply involved in capital project development and oversight of projects from concept to finish, communicating OOWA's goals to engineers, architects and contractors, environmental compliance issues, leases and contract administration and customer relations.

Williams says that in 1974 while he was employed by the Daily McAlester Democrat, he saw an Associated Press news story that reported Pryor business leaders had designated a day to honor Gene Redden for his efforts to plan and develop the MidAmerica Industrial Park. The story went on to say that Redden had the vision to see what the former powder plant property could become and set about the process of making that vision become reality. The AP story touted how many individual companies were located in the park, how many jobs had been created and the economic benefit those payroll dollars brought to the area.

"I thought to myself at the time, 'Boy, that would be a great place to work to be part of an organization like that.' McAlester has never had great economic success in attracting new industries," Williams said in reflection. "I wondered what made Pryor different. I wanted McAlester to have what Pryor had. Little did I know that just two years later I would come to work at a newspaper in Pryor and that would eventually lead to a career at MidAmerica."

Over the years Williams has served as President of the Pryor Area Chamber of Commerce, Chairman of the Mayes County United Way, and President of the Pryor Lions Club. His Lions Club years were marked by an appearance as Little Orphan Annie, alongside Ivan B. Williams III as Sandy the dog, and Phil Kennedy as Daddy Warbucks, in Pryor-za-Popping skit. At the time Henry Bellmon, Oklahoma's Department of Human Services Director, was closing down the former Whitaker Children's home. Speculation was that the facility was destined to be transformed into a minimum-security prison. The Whitaker closure was not popular among Pryor citizenry and the idea of a prison sitting in the middle of

Pryor was even less popular. Larry Williams, along with Sanders Mitchell, then OOWA General Manager, was asked to co-chair a task force to investigate and search out alternative uses for the Whitaker facility. During the task force's work, Governor George Nigh came to Pryor to address public concerns at a packed American Legion Hall. That night Nigh promised that if Pryor did not want a minimum-security prison, he would see that it was located elsewhere. A few months after Nigh's visit, an announcement was made that the facility was being transferred to the Oklahoma Military Department and the Thunderbird Youth Academy was born. As a result of the Whitaker Task Force's efforts, Williams was presented with the W.A. Graham Memorial Award for "Dedicated Community Service."

Since 2013, Williams has served on the governing board of the Mayes Emergency Services Trust Authority (MESTA), which delivers emergency medical service and transportation throughout Mayes County.

"I have lived in Pryor for 43 years and just never have found a place that I would like to live than right here. When I was young, I was chasing a career. But, in doing so, I found a home. We have so much to offer a family that is looking for a "forever-home," Williams said. "Soon after I arrived it dawned on me that I needed to be giving back. The Pryor community gave me so much, I needed to give back, to pay-it-forward, so to speak. I have stressed to my grandchildren that they need to do something for their community, even if it is something small; deliver a Thanksgiving meal to a person that will otherwise go without, ring the Salvation Army bell, do something to make a difference. I truly believe that my years at MidAmerica have given me a foundation to understand the various sides of a complex situation and find common ground to bring about desired results. I am not afraid of hard work, never have been, never will be. I have long-standing relationships with other members on this Authority that will enable me to serve effectively. I am eager for the opportunity."

RESOLUTION NO. 2019-3

A RESOLUTION OF THE CITY COUNCIL FOR THE CITY OF PRYOR CREEK, OKLAHOMA CONCERNING IDENTIFICATION OF NON-EXCLUSIVE LIST OF CAPITAL IMPROVEMENT PROJECTS RECEIVING PRIORITY CONSIDERATION IN THE PROJECTS TO BE FUNDED UNDER PROPOSITION 1 OF RESOLUTION 2018-15 AND ORDINANCE 2018-18 REGARDING THE PROPOSED AMENDMENT OF SALES TAX ORDINANCES TO BE SUBMITTED TO A VOTE OF THE PEOPLE ON March 5, 2019.

WHEREAS, the City Council and Mayor have unanimously approved a Resolution and Ordinance calling for a city election proposing to amend the City's sales tax ordinance No. 2011-1; and

WHEREAS, the proposed amendments to the sales tax ordinance, if passed by the voters, would extend the termination date of the sales tax to September 30, 2034.

WHEREAS, the proposed amendments to the sales tax ordinance, if passed by the voters, would not create a new sales tax or increase the current existing rate of sales tax, but rather merely extends the length of time the current sales tax rate would remain effective.

WHEREAS, the Council has determined that extension of the effective time period of the current rate of sales tax, if passed by the voters, would provide revenues under **Proposition 1** to fund "*capital expenditures to include, but not be limited to police and firefighting facilities and such other capital expenditures as determined by the Mayor and City Council of the City of Pryor Creek, Oklahoma, all for the use and benefit of the City or any public trust with the City as a beneficiary and/or for debt service in connection with obligations issued to finance said capital expenditures*".

NOW, THEREFORE, BE IT RESOLVED BY THE MAYOR AND CITY COUNCIL OF THE CITY OF PRYOR CREEK, OKLAHOMA:

That the following non-exclusive list of projects shall be the projects of the City to receive priority consideration in the projects to be funded under the aforementioned *Proposition 1* upon its passage by the voters with the proceeds from the extended tax as funding allows; and further acknowledging that estimates of project costs received by the City and set forth in the materials presented to the City Council in the Agenda Packet at the February 5, 2019 meeting of the City Council are merely cost estimates and actual project costs may vary from the estimates presented:

- Police/Fire Emergency Services Center
- City Library Additions and Renovations
- Sertoma Club Building Remodel
- Old City Hall Community Center Remodel
- Golf Course – New Maintenance Building
- Soccer
- Pryor Youth Organization Building

- Pryor Youth Baseball Organization Improvements
- Girls' Softball
- Park Restrooms
- Park Pool
- Bike Trail
- Internet

That the order in which the projects listed above appear in this Resolution is not intended as a listing of the projects in order of priority within the list, but however the list is set forth as identifying the list of projects taking priority over other possible projects which may be addressed with funding derived from revenues generated from the passage of *Proposition 1* identified herein above.

APPROVED, this 19 day February, 2019.

Jimmy Tramel, Mayor

ATTEST:

Eva Smith, City Clerk

APPROVED AS TO FORM AND LEGALITY:

K. Ellis Ritchie, City Attorney
Dated: 2/19/19

ORDINANCE NO. _____

AN ORDINANCE PROVIDING FOR THE ANNEXATION OF A PART OF THE SOUTHWEST QUARTER OF SECTION 31, TOWNSHIP 21 NORTH, RANGE 19 EAST OF THE INDIAN BASE AND MERIDIAN, MAYES COUNTY, OKLAHOMA INTO THE CORPORATE LIMITS AND AS PART OF THE CITY OF PRYOR CREEK, OKLAHOMA; PROVIDING THAT THE NEWLY ANNEXED TERRITORY BE ZONED "CG" (COMMERCIAL GENERAL); AND PROVIDING FOR REPEALER AND SEVERABILITY.

COMING BEFORE the City Council for the City of Pryor Creek, Oklahoma, is the Petition for Annexation filed by the Oklahoma Ordinance Works Authority, a public trust, (hereinafter "OOWA") in reference to the following:

SECTION 1: JURISDICTIONAL FACTS

A Petition for Annexation was filed with the City of Pryor Creek, Oklahoma on December 13, 2019 by the OOWA. In said Petition for Annexation, OOWA, requested that the City of Pryor Creek add the following described property into the corporate limits of the City:

A tract of land situated in Southwest Quarter (SW/4) Section 31, Township 21 North, Range 19 East of the Indian Base and Meridian, Mayes County, Oklahoma, being more particularly described as follows to-wit:

Commencing at the Southwest Corner of said SW/4, THENCE N88°28'26"E for a distance of 140.00 feet along the South Line of said SW/4 to the POINT OF

BEGINNING; THENCE N1°35'52"W for a distance of 300.00 feet;

THENCE S88°28'24"W for a distance of 140.00 feet to a point on the West Line of said SW/4; THENCE N1°35'54"W for a distance of 58.01 feet to a point on the Southerly Right-of-Way of the City of Tulsa's Water Line;

THENCE N69°01'14"E for a distance of 783.28 feet along said Southerly Right-of-Way; THENCE along a curve to the left having a radius of 5804.05 feet for a distance of 591.29 feet, being subtended by a chord of N66°06'13"E for a distance of 591.03 feet, along said Southerly Right-of-Way;

THENCE S1°34'17"E for a distance of 603.22 feet;

THENCE N88°25'43"E for a distance of 877.10 feet;

THENCE S1°34'17"E for a distance of 240.50 feet to a point on the South Line of said SW/4; THENCE S88°25'43"W for a distance of 999.72 feet along said South Line;

THENCE S88°28'26"W for a distance of 1022.72 feet along said South Line to the POINT OF BEGINNING.

Notice of the presentation of said Petition for Annexation was published at least once each week for two (2) successive weeks in a newspaper of general circulation in the City of Pryor Creek. The Petitioner, OOWA, by way of its Petition for Annexation has properly requested and consented to the annexation of the above described territory to the City. The territory petitioned to be annexed is adjacent and contiguous to the City of Pryor Creek. The territory petitioned to be annexed is vacant and unoccupied and no registered voter resides within the territory sought to be annexed. Petitioner, OOWA, is the sole owner of the entirety which comprises the territory petitioned to be annexed and therefore is the owner of all the value of the property comprising the territory petitioned to be annexed. The City of Pryor Creek finds that the Petition for Annexation satisfies all of the requirements of the Oklahoma Municipal Code.

The City of Pryor Creek finds that said property is adjacent and contiguous to the corporate limits of the City of Pryor Creek, is not part of any other incorporated municipality, and is owned by OOWA. The City of Pryor Creek further finds that the notice published fully complies with Oklahoma law as to the form, giving notice that said Petition had been presented, setting forth the nature and purpose of said Petition, describing the property sought to be annexed, and reciting that the Petition was signed by the owner of the property sought to be annexed. The City of Pryor Creek further finds that the requirements for annexation set forth in the Oklahoma Municipal Code have been fully satisfied.

SECTION 2: ANNEXATION

BE IT ORDAINED BY THE CITY COUNCIL FOR THE CITY OF PRYOR CREEK, OKLAHOMA, that, pursuant to the laws of the State of Oklahoma, and based on the facts and circumstances herein set forth, the following described property is annexed by the City of Pryor Creek, Oklahoma into the corporate limits of the City and is added to the territory of the City of Pryor Creek, Oklahoma:

A tract of land situated in Southwest Quarter (SW/4) Section 31, Township 21 North, Range 19 East of the Indian Base and Meridian, Mayes County, Oklahoma, being more particularly described as follows to-wit:

Commencing at the Southwest Corner of said SW/4, THENCE N88°28'26"E for a distance of 140.00 feet along the South Line of said SW/4 to the POINT OF BEGINNING; THENCE N1°35'52"W for a distance of 300.00 feet;

THENCE S88°28'24"W for a distance of 140.00 feet to a point on the West Line of said SW/4; THENCE N1°35'54"W for a distance of 58.01 feet to a point on the Southerly Right-of-Way of the City of Tulsa's Water Line;

THENCE N69°01'14"E for a distance of 783.28 feet along said Southerly Right-of-Way; THENCE along a curve to the left having a radius of 5804.05 feet for a distance of 591.29 feet, being subtended by a chord of N66°06'13"E for a distance of 591.03 feet, along said Southerly Right-of-Way;

THENCE S1°34'17"E for a distance of 603.22 feet;

THENCE N88°25'43"E for a distance of 877.10 feet;
THENCE S1°34'17"E for a distance of 240.50 feet to a point on the South Line of said SW/4; THENCE S88 25'43"W for a distance of 999.72 feet along said South Line;
THENCE S88°28'26"W for a distance of 1022.72 feet along said South Line to the POINT OF BEGINNING

and that the Official Zoning Map of the City of Pryor Creek, Oklahoma, shall be amended to reflect the change in the boundaries resulting from this annexation. The Mayor is hereby authorized and directed to file and record a duly certified copy of this Ordinance, together with an accurate map or plat of the annexed property, in the office of the Mayes County Clerk and with the Ad Valorem Division of the Oklahoma Tax Commission, and to take appropriate measures to implement this Ordinance.

SECTION 3: ZONING

BE IT ORDAINED BY THE CITY COUNCIL FOR THE CITY OF PRYOR CREEK, OKLAHOMA, that pursuant to Section 10-1-10.E of the Code of Ordinances of the City of Pryor Creek, Oklahoma providing for the assignment of the zoning classification to territory annexed to the City, that the following described tract of land newly annexed into the City of Pryor Creek, Oklahoma is hereby classified as "CG" (Commercial General), to-wit:

A tract of land situated in Southwest Quarter (SW/4) Section 31, Township 21 North, Range 19 East of the Indian Base and Meridian, Mayes County, Oklahoma, being more particularly described as follows to-wit:

Commencing at the Southwest Corner of said SW/4, THENCE N88°28'26"E for a distance of

140.00 feet along the South Line of said SW/4 to the POINT OF BEGINNING; THENCE N1°35'52"W for a distance of 300.00 feet;

THENCE S88°28'24"W for a distance of 140.00 feet to a point on the West Line of said SW/4; THENCE N1°35'54"W for a distance of 58.01 feet to a point on the Southerly Right-of-Way of the City of Tulsa's Water Line;

THENCE N69°01'14"E for a distance of 783.28 feet along said Southerly Right-of-Way; THENCE along a curve to the left having a radius of 5804.05 feet for a distance of 591.29 feet, being subtended by a chord of N66°06'13"E for a distance of 591.03 feet, along said Southerly Right-of-Way;

THENCE S1°34'17"E for a distance of 603.22 feet;

THENCE N88°25'43"E for a distance of 877.10 feet;

THENCE S1°34'17"E for a distance of 240.50 feet to a point on the South Line of said SW/4; THENCE S88 25'43"W for a distance of 999.72 feet along said South Line;
THENCE S88°28'26"W for a distance of 1022.72 feet along said South Line to the POINT OF BEGINNING

and that the Official Zoning Map of the City of Pryor Creek, Oklahoma, shall be amended to reflect the establishment of zoning of the annexed territory as reflected in this Section 3.

SECTION 4: REPEALER

All ordinances or parts of ordinances in conflict here with are hereby repealed to the extent of any such conflict.

SECTION 5: SEVERABILITY

If any section, sub-section, sentence, clause, phrase, or portion of this Ordinance is, for any reason, held invalid or unconstitutional by any Court of competent jurisdiction, such portion shall be deemed a separate, distinct and independent provision and such holding shall not affect the validity of the remaining portion of this ordinance.

Passed and Approved by the Council of the City of Pryor Creek, Oklahoma, in regular session on this ____ day of _____, 2020.

CITY OF PRYOR CREEK, OKLAHOMA

Larry Lees, Mayor

ATTEST:

Eva Smith, City Clerk

APPROVED AS TO FORM AND LEGALITY:

Kim Ritchie, City Attorney

Dated: _____

**MINUTES
CITY COUNCIL MEETING
FOLLOWED BY PRYOR PUBLIC WORKS AUTHORITY MEETING
CITY OF PRYOR CREEK, OKLAHOMA
TUESDAY, DECEMBER 17TH, 2019 AT 6:00 P.M.**

The City Council of the City of Pryor Creek, Oklahoma met in regular session on the above date and time in the Council Chamber upstairs at City Hall, 12 North Rowe Street in Pryor Creek, Oklahoma. This meeting was followed immediately by a meeting of the Pryor Public Works Authority. Notice of these meetings was posted on the East bulletin board located outside to the South of the entrance doors and the City website at www.pryorcreek.org. Notice was also e-mailed to *The Paper* newspaper and e-mailed to the Council members.

1. CALL TO ORDER, PRAYER, PLEDGE OF ALLEGIANCE, ROLL CALL.

Mayor Lees called the meeting to order at 6:00 p.m. The Prayer and Pledge of Allegiance were led by Jon Ketcher. Roll Call was conducted by City Clerk Eva Smith. Council members present included: Jon Ketcher, Choya Shropshire, Steve Smith, Randy Chitwood, Briana Brakefield and Zac Doyle. Members absent: Dennis Nance and Jill Sherman.

Department Heads and other City Officials present: City Attorney Kim Ritchie, Assistant Police Chief James Willyard, Assistant Fire Chief James Baumert, Building Inspector Kenneth Young and Emergency Management Director Johnny Janzen.

Others: Municipal Utility Board General Manager Jared Crisp, Ron and Marjorie Kolker, Jeff and Catalina Kolker, Kemmie Shropshire, Alice Copeland, James Weddington, Lonnie McCullough, Christine Littlefield, Jimmy Tramel, Tim Lawson.

2. DEPARTMENT HEAD REPORTS IF NEEDED:

a. Building Inspector

Young had no report.

b. Emergency Management

Janzen reported that they have been filling out the annual report required by Homeland Security. FEMA should be paying on Golf Course in January or February and the streets and others will follow. They are getting very close on it.

c. Fire

Baumert had no report.

d. Golf

No report.

e. Library

No report.

f. Parks / Cemetery

No report.

g. Police

Willyard had no report.

h. Recreation Center

No report.

i. Street

No report.

**3. PETITIONS FROM THE AUDIENCE.
(LIMITED TO 5 MINUTES.)**

Municipal Utility Board General Manager Jared Crisp spoke, stating that after their internal audit by Violet Kirkendall with Hood and Associates, they were found to have a decent reserve. After approval from their Board at the second meeting in January, they will be presenting the City with a check for \$198,886.12. He stated that this is due to some capital improvement projects that did not go through, as well as being short one employee; therefore, this will not be a common occurrence going forward.

4. MAYOR’S REPORT:

a. Proclamation Honoring Ron Kolker for his service to the City of Pryor Creek.

Mayor Lees recognized Ron Kolker and presented a proclamation in his honor, upon his retirement as City Accountant, and thanked him for all he has done for Pryor Creek over the years.

5. CITY ATTORNEY’S REPORT:

a. Discussion and possible action concerning the current proposed revised MOU among the City of Pryor Creek, Pryor Municipal Utility Board and MAIP/OOWA regarding proposed annexation of property known as “The District.”

Motion was made by Shropshire, second by Chitwood to approve current proposed revised MOU among the City of Pryor Creek, Pryor Municipal Utility Board and MAIP/OOWA regarding proposed annexation of property known as “The District.” Voting yes: Ketcher, Shropshire, Smith, Chitwood, Brakefield, Doyle. Voting no: none.

b. Discussion and possible action to set hearing date and issue notices for hearing on proposed annexation of territory pursuant to petition for annexation of territory filed with the City by Oklahoma Ordnance Works Authority concerning property therein described.

Motion was made by Chitwood, second by Smith to set hearing date for January 7th, 2020 and issue notices for hearing on proposed annexation of territory pursuant to petition for annexation of territory filed with the City by Oklahoma Ordnance Works Authority concerning property therein described. Voting yes: Shropshire, Smith, Chitwood, Brakefield, Doyle, Ketcher. Voting no: none.

6. PUBLIC HEARING:

a. Rezoning Applicant: RCB Bank has requested a zoning change for the property in the City of Pryor, to-wit:

Lot Numbered Eight (8) in Block Numbered Forty-Nine (49) in the Incorporated Town of PRYOR CREEK, Mayes County, State of Oklahoma, according to the United States Government Survey and Plat thereof, AND, Lot Numbered Nine (9) in Block Numbered Forty-Nine (49) in the Incorporated Town of PRYOR CREEK, Mayes County, State of Oklahoma, according to the United States Government Plat and Survey thereof.

RCB Bank owns Lot 8 and the owner of Lot 9 is Barbara Morehead. The present zoning designation for both properties is RM (previously RG) Residential Multi-Family. They are requesting zoning change to CG Commercial General.

Motion was made by Chitwood, second by Shropshire to enter public hearing.

Motion was made by Chitwood, second by Smith to exit public hearing. Voting yes: Smith, Chitwood, Brakefield, Doyle, Ketcher, Shropshire. Voting no: none.

7. DISCUSSION AND POSSIBLE ACTION REGARDING APPROVAL OF REZONING REQUEST PRESENTED BY RCB BANK FOR THE ABOVE DESCRIBED PROPERTY.

Motion was made by Chitwood, second by Brakefield to approve zoning change for the property in the City of Pryor, to-wit:

Lot Numbered Eight (8) in Block Numbered Forty-Nine (49) in the Incorporated Town of PRYOR CREEK, Mayes County, State of Oklahoma, according to the United States Government Survey and Plat thereof, AND, Lot Numbered Nine (9) in Block Numbered Forty-Nine (49) in the Incorporated Town of PRYOR CREEK, Mayes County, State of Oklahoma, according to the United States Government Plat and Survey thereof.

RCB Bank owns Lot 8 and the owner of Lot 9 is Barbara Morehead. The present zoning designation for both properties is RM (previously RG) Residential Multi-Family. They are requesting zoning change to CG Commercial General.

Voting yes: Chitwood, Brakefield, Doyle, Ketcher, Shropshire, Smith. Voting no: none.

8. DISCUSS, POSSIBLY ACT ON CONSENT AGENDA.

(Items deemed non-controversial and routine in nature to be approved by one motion without discussion. Any Council member wishing to discuss an item may request it be removed and placed on the regular agenda.)

- a. Approve minutes of the December 3rd, 2019 Council meeting.
- b. Approve payroll purchase orders through December 27th, 2019.
- c. Approve claims for purchase orders through December 17th, 2019.

ProGator 2030A

ProGator 2020A

Engineered for the long haul.

Let the heavy hauling begin. The 2020A features the only four-cylinder EFI gas engine in the category. With 34 hp* and 970 cc of hill-climbing torque, you'll get strength, raw power, performance, and easy maintenance. No wonder the gas 2020A and diesel 2030A are ideal for heavy hauling, spraying, and top dressing. Done hauling? These vehicles can be converted to a SelectSpray™ sprayer in just minutes, without tools.

ProGator™ 2030A Utility Vehicle

22.1 hp* (16.5 kW) @3200 rpm, liquid-cooled engine

1115 cc diesel engine

5-speed synchromesh transmission

Up to 3,414 lbs. (1549 kg) payload w/ standard suspension and 4,157 lb. (1886 kg) payload w/ heavy-duty suspension, 4-Post ROPS, and wide rear tire kit. Includes 200 lb. operator, 200 lb. passenger, and loaded attachment

19.1-mph (30.7 km/h) top speed

ProGator™ 2020A Utility Vehicle

34 hp* (25.4 kW) @3600 rpm, liquid-cooled engine

970 cc gas engine

5-speed synchromesh transmission

Up to 3,374 lbs. (1530 kg) payload w/ standard suspension and 4,251 lb. (1928 kg) payload w/ heavy-duty suspension, wide rear tire, and 4-Post ROPS. Includes 200 lb. operator, 200 lb. passenger, and loaded attachment.

19.1-mph (30.7 km/h) top speed

More choices than any other line of sprayers.

The SelectSpray™ Series spray system is built around flexibility and control. You can choose to equip one with a high-quality centrifugal or diaphragm pump, and when you need to move on to the next job, it all detaches in minutes, without tools.

HD200/H300

200 U.S. gal. (757 L) - HD200

300 U.S. gal. (757 L) - HD300

Hydraulically driven centrifugal or diaphragm pump

97 gpm (centrifugal), 30.1 gpm (diaphragm)

18-ft. boom option

15/21-ft. boom option

Automatic or manual rate controller

Triple nozzle bodies

Electrohydraulic lift system

Bidirectional breakaway boom system

Controller options

Choose an economical manual controller or full-featured automatic rate controller. Both are capable of assuring the calibration and precise control for successful chemical applications.

- [Description](#)
- [Manual](#)
- [Replacement Parts](#)

The WG4 is the midsize version of Hose Fed Sprayers (shroud measures 62" end to end), it is designed for the average populated areas. Common uses are tee boxes, putting greens, bowling greens and smaller yards. All the framework is made with corrosion resistant aluminum and the shroud is a durable polyethylene, this light weight sprayer only weighs 55lbs (25Kg) and is easily transported with one of our front transport mounts. Ceramic 8004 tips, foam filled (no-flat) wheels with poly rims and the patented windfoil technology are some of the key features of this little spray boom. Our mission is for a healthier, safer, spray environment for everyone.

Specifications:

- Polyethylene and aluminum construction
- 10" diameter smooth "no-flat" foam tires
- Replaceable nonabsorbent drift-stop skirt
- AXI8004 Ceramic insert spray tips with 50 mesh screens
- Diaphragm nozzle body assemblies (20psi) with 1/4 turn caps
- 1/2" nozzle feed lines and nozzle flow indicator
- Handle Mounted valve with quick disconnect camlock fitting.
- Pressure gauge (0 to 100psi)
- Height adjustable handle. Folds vertically for ease of transport.

Optional Accessories:

Part # 13368 - Speedometer kit

The Speedometer Kit provides a reading in mph or kph of your forward speed. This aids in the accuracy of applying specific application rates. This option can be ordered installed from factory or later on as a kit.

[Part # F111 - Tow hitch](#)

This attachment allows you to tow your sprayer behind a small utility vehicle outfitted with a pin hitch. The hitch attaches to a mounting bracket located on the front castor wheel of the sprayer. Tow bar installs and removes in seconds.

Front Transport Mount Kit

The Front Transport Mount Kit attaches directly onto your existing work vehicle allowing easy transport of your W/F Greensfoil series sprayer. It is available for many different Toro and John Deere machines.

WARRANTY FOR NEW JOHN DEERE GOLF & TURF EQUIPMENT (US & Canada Only)

A. GENERAL PROVISIONS - With respect to purchasers in the United States, "John Deere" means Deere & Company, 1 John Deere Place, Moline, IL 61265 and with respect to purchasers in Canada, "John Deere" means John Deere Canada ULC, 295 Hunter Road, P.O. Box 1000, Grimsby, Ontario L3M 4H5. The warranties described below are provided by John Deere to the original purchasers of new John Deere Golf and Turf equipment ("Equipment") purchased from John Deere or an authorized John Deere dealer or distributor ("Selling Dealer"). These warranties apply only to Equipment intended for sale in the United States and Canada. Under these warranties, John Deere will repair or replace, at its option, any part covered under these warranties which is found to be defective in material or workmanship during the applicable warranty term. Warranty service must be performed by a dealer, distributor or service center authorized by John Deere to sell and/or service the type of equipment involved ("Authorized Dealer"). The Authorized Dealer will use only new or remanufactured parts or components furnished or approved by John Deere. Warranty service will be performed without charge to the purchaser for parts and/or labour. However, the purchaser will be responsible for any service call and/or transportation of Equipment to and from the Authorized Dealer's place of business (except where prohibited by law), for any premium charged for overtime labour requested by the purchaser and for any service and/or maintenance not directly related to any defect covered under these warranties. These warranties are transferable, provided an Authorized Dealer is notified of the ownership change, and John Deere approves the warranty transfer.

B. WHAT IS WARRANTED - Subject to section C, all parts of any new Equipment are warranted for the number of months or operating hours specified below. Each warranty term begins on the date of delivery of the Equipment to the original purchaser.

EQUIPMENT	WARRANTY TERM
1) Aerators: 800, 1000, 1500, 2000*	24 Months/Unlimited Hours
2) Bunker Rakes: 1200A, 1200 Hydro Rake*	
3) Debris Maint: TC125* Collection System	
4) Reel Mowers: 180, 220, 260, 2500, 2653, 7000 & 8000 Series*	
5) Rotary Mowers: 7000, 8000 & 9000 Series*	
6) Frontier Equipment™ Reel Grinder: RG5000, RG5500*	
7) Frontier Equipment™ Bedknife Grinder: BG1000, BG1500*	
8) Walk Greens Mower Trailers: 22 Series*	
9) ProGator™: 2020A, 2030A	24 Months/1500 Hours, whichever comes first
10) Turf Gator™: Turf, TX Turf	
11) Sprayer: HD200, HD300	
12) Top Dresser: TD100	
13) E-Gator™: E Gator, TE Gator	

*Including compatible implements/attachments

C. (I) ITEMS COVERED SEPARATELY - Unless listed in the applicable parts catalog, this warranty does not apply to (1) Batteries; (2) Radios; (3) Tires; and (4) Sprayer Controllers which are covered by separate written warranties.

(II) WHAT IS NOT WARRANTED - Pursuant to the terms of these warranties, JOHN DEERE IS NOT RESPONSIBLE FOR THE FOLLOWING: (1) Used Equipment; (2) Any Equipment that has been altered or modified in ways not approved by John Deere, including, but not limited to, setting injection pump fuel delivery above John Deere specifications; (3) Depreciation or damage caused by normal wear, lack of reasonable and proper maintenance, failure to follow operating instructions/recommendations; misuse, lack of proper protection during storage, vandalism, the elements or collision or accident; (4) Normal maintenance and replacement of maintenance and wear items, such as oil, filters, coolants and conditioners, blades and other cutting/mowing parts, belts, brake and clutch linings, spark plugs, hoses, tires and batteries.

D. SECURING WARRANTY SERVICE - To secure warranty service, the purchaser must, (1) Report the Equipment defect to an Authorized Dealer and request warranty service within the applicable warranty term; (2) Present evidence of the warranty start date with valid proof of purchase; and (3) Make the Equipment available to the Authorized Dealer within a reasonable time.

E. NO IMPLIED WARRANTY, REPRESENTATION OR CONDITION - To the extent permitted by law, neither John Deere nor any company affiliated with it makes any warranties, representations, conditions or promises, express or implied, as to the quality, performance or freedom from defect of the Equipment covered by these warranties other than those set forth above, AND NO STATUTORY OR IMPLIED WARRANTIES OR CONDITIONS OF MERCHANTABILITY OR FITNESS ARE MADE. TO THE EXTENT LEGALLY REQUIRED, ANY IMPLIED WARRANTIES OR CONDITIONS SHALL BE LIMITED IN DURATION TO THE APPLICABLE PERIOD OF WARRANTY SET FORTH ON THIS PAGE. THE PURCHASER'S ONLY REMEDIES IN CONNECTION WITH THE BREACH OR PERFORMANCE OF ANY WARRANTY ON JOHN DEERE EQUIPMENT ARE THOSE SET FORTH ON THIS PAGE. IN NO EVENT WILL THE DEALER, JOHN DEERE OR ANY COMPANY AFFILIATED WITH JOHN DEERE BE LIABLE FOR INCIDENTAL OR CONSEQUENTIAL DAMAGES.

F. NO DEALER/DISTRIBUTOR WARRANTY - THE SELLING DEALER HAS NO AUTHORITY TO MAKE ANY WARRANTY, REPRESENTATION, CONDITION OR PROMISE ON BEHALF OF JOHN DEERE, OR TO MODIFY THE TERMS OR LIMITATIONS OF THIS WARRANTY IN ANY WAY AND MAKES NO WARRANTY ON ANY OTHER ITEM UNLESS IT DELIVERS TO THE PURCHASER A SEPARATE WRITTEN CERTIFICATE SPECIFICALLY WARRANTING THE ITEM.

2500B E-Cut Hybrid

The only riding greens mowers everyone can appreciate.

The 2500 E-Cut(TM) Hybrid riding greens mowers use electric reel motors instead of hydraulics. This innovative design cuts noise and fuel costs, and virtually eliminates the possibility of hydraulic leaks in the reel drive circuit.

2500E E-Cut

19,6-hp* (14,6 kW) diesel
or 21 hp* (15,7 kW) gas

62-in. (157,5 cm) cutting width

Electric reel motors

3 cutting units; offset design

Bedknife-to-reel adjustment

3-QA5 22-in. (59,9 cm) cutting units

2-pedal hydrostatic transmission

Quietest riding greens mower
according to ISO standards

2500B

19,6-hp* (14,6 kW) diesel
or 21 hp* (15,7 kW) gas

62-in. (157,5 cm) cutting width

3 cutting units; offset design

Bedknife-to-reel adjustment

3-QA5 22-in. (59,9 cm) cutting units

2-pedal hydrostatic transmission

2500E E-Cut Hybrid

Superb contour following

The exclusive ball joint suspension system provides exceptional contour following, steering with up to 18 degrees of side-to-side motion, and adjustable fore and aft motion.

Grass catcher

Choose between direct-mounted catchers that are easy to put on and off and our unique weight-transferring catchers, which put less weight on the cutting unit.

Reduce double rolling

The tires are located well inside the cutting units to reduce or eliminate double rolling during straight-line passes.

Exclusive offset design

The offset cutting units greatly reduce triplex ring with a simple change in direction.

WARRANTY FOR NEW JOHN DEERE GOLF & TURF EQUIPMENT (US & Canada Only)

A. GENERAL PROVISIONS - With respect to purchasers in the United States, "John Deere" means Deere & Company, 1 John Deere Place, Moline, IL 61265 and with respect to purchasers in Canada, "John Deere" means John Deere Canada ULC, 295 Hunter Road, P.O. Box 1000, Grimsby, Ontario L3M 4H5. The warranties described below are provided by John Deere to the original purchasers of new John Deere Golf and Turf equipment ("Equipment") purchased from John Deere or an authorized John Deere dealer or distributor ("Selling Dealer"). These warranties apply only to Equipment intended for sale in the United States and Canada. Under these warranties, John Deere will repair or replace, at its option, any part covered under these warranties which is found to be defective in material or workmanship during the applicable warranty term. Warranty service must be performed by a dealer, distributor or service center authorized by John Deere to sell and/or service the type of equipment involved ("Authorized Dealer"). C. (I) ITEMS COVERED SEPARATELY - Unless listed in the applicable parts catalog, this warranty does not apply to (1) Batteries; (2) Radios; (3) Tires; and (4) Sprayer Controllers which are covered by separate written warranties.

(II) WHAT IS NOT WARRANTED - Pursuant to the terms of these warranties, JOHN DEERE IS NOT RESPONSIBLE FOR THE FOLLOWING: (1) Used Equipment; (2) Any Equipment that has been altered or modified in ways not approved by John Deere, including, but not limited to, setting injection pump fuel delivery above John Deere specifications; (3) Depreciation or damage caused by normal wear, lack of reasonable and proper maintenance, failure to follow operating instructions/recommendations; misuse, lack of proper protection during storage, vandalism, the elements or collision or accident; (4) Normal maintenance and replacement of maintenance and wear items, such as oil, filters, coolants and conditioners, blades and other cutting/mowing parts, belts, brake and clutch linings, spark plugs, hoses, tires and batteries.

D. SECURING WARRANTY SERVICE - To secure warranty service, the purchaser must, (1) Report the Equipment defect to an Authorized Dealer and request warranty service within the applicable warranty term; (2) Present evidence of the warranty start date with valid proof of purchase; and (3) Make the Equipment available to the Authorized Dealer within a reasonable time.

E. NO IMPLIED WARRANTY, REPRESENTATION OR CONDITION - To the extent permitted by law, neither John Deere nor any company affiliated with it makes any warranties, representations, conditions or promises, express or implied, as to the quality, performance or freedom from defect of the Equipment covered by these warranties other than those set forth above, AND NO STATUTORY OR IMPLIED WARRANTIES OR CONDITIONS OF MERCHANTABILITY OR FITNESS ARE MADE. TO THE EXTENT LEGALLY REQUIRED, ANY IMPLIED WARRANTIES OR CONDITIONS SHALL BE LIMITED IN DURATION TO THE APPLICABLE PERIOD OF WARRANTY SET FORTH ON THIS PAGE. THE PURCHASER'S ONLY REMEDIES IN CONNECTION WITH THE BREACH OR PERFORMANCE OF ANY WARRANTY ON JOHN DEERE EQUIPMENT ARE THOSE SET FORTH ON THIS PAGE. IN NO EVENT WILL THE DEALER, JOHN DEERE OR ANY COMPANY AFFILIATED WITH JOHN DEERE BE LIABLE FOR INCIDENTAL OR CONSEQUENTIAL DAMAGES.

F. NO DEALER/DISTRIBUTOR WARRANTY - THE SELLING DEALER HAS NO AUTHORITY TO MAKE ANY WARRANTY, REPRESENTATION, CONDITION OR PROMISE ON BEHALF OF JOHN DEERE, OR TO MODIFY THE TERMS OR LIMITATIONS OF THIS WARRANTY IN ANY WAY AND MAKES NO WARRANTY ON ANY OTHER ITEM UNLESS IT DELIVERS TO THE PURCHASER A SEPARATE WRITTEN CERTIFICATE SPECIFICALLY WARRANTING THE ITEM.

**NOTICE AND AGENDA
PARK BOARD
SPECIAL MEETING
THURSDAY, DECEMBER 19TH, 2019
6:00 P.M.**

AS REQUIRED BY THE OKLAHOMA OPEN MEETING ACT NOTICE IS HEREBY GIVEN THAT THE PARK BOARD WILL MEET IN SPECIAL SESSION IN THE COUNCIL CHAMBER, 12 NORTH ROWE STREET, PRYOR, OKLAHOMA AT THE ABOVE DATE AND TIME. FOR SPECIAL ACCOMMODATIONS TO ATTEND PLEASE CONTACT 918-825-0888.

BOARD MEMBERS: ** BILL KANNIESSER, MELINDA MARKS, PAT RICHARD, WAYNE JONES, LORI SIEVER, CHRIS GRAVES, KEITH SHELBY

1. Call meeting to order.
2. Sealed Bid Opening for Golf Course Equipment – Sprayer.
3. Sealed Bid Opening for Golf Course Equipment - Greens Mower.
4. Sealed Bid Opening for Golf Course Equipment - Debris Blower.
5. Sealed Bid Opening for Golf Course Equipment - Rough Mower.
6. Sealed Bid Opening for Golf Course Equipment - Tractor for Rough Mower.
7. Discuss, possibly recommend Council action regarding purchase of Sprayer from bids received.
8. Discuss, possibly recommend Council action regarding purchase of Greens Mower from bids received.
9. Discuss, possibly recommend Council action regarding purchase of Debris Blower from bids received.
10. Discuss, possibly recommend Council action regarding purchase of Rough Mower from bids received.
11. Discuss, possibly recommend Council action regarding purchase of Tractor for Rough Mower from bids received.
12. Adjourn.

REQUESTS FOR PROPOSALS FOR A RIDING GREENS MOWER
FOR THE CITY OF PRYOR CREEK IN PRYOR, OKLAHOMA

I. PURPOSE AND SCOPE

The City of Pryor, OK (hereafter "City") seek Proposals for the Purchase of Riding Greens Mower for the Pryor Creek Golf Course.

The point of contact for this RFP is Dennis Bowman, Director of Golf at 918-825-3056.

The RFP process should result in the City purchasing One (1) new Riding Greens Mower

II. SUBMITTALS

One (1) copy of the proposal will be received until Wednesday 18th of December at: 4:00pm

Park Board Meets thursday December 19th at 6:00pm at City Hall

12 North Rowe St.

Pryor, Ok 74361

Dennis Bowman City of Pryor Creek
Golf Course ATTN: Pryor Creek Golf
Spray Vehicle 724 E 530 Rd., 74361
Pryor, Oklahoma

A. Proposals are to be prepared on standard 8 1/2" x 11" paper.
Foldouts containing charts and oversize exhibits are permissible.

B. Proposals must include:

- a. Cover Letter: signed by the proposing representative authorized to make contractual obligations.
- b. Reference List including current and former clients with contact information. (The City of Pryor Creek may, at its option, contact any of the above or known clients of yours for references.)
- c. All warranty information regarding Golf Spray Vehicle.

III. SPECIFICATIONS FOR SPRAY VEHICLE

Item #1 Minimum Requirement Bidder's Response

Engine Type and HP: Gasoline or Diesel: Gas

Electrical: • Electric Ignition Comply ✓

• "Reverse" Warning Comply ✓

• Oil Warning Light Comply ✓

Fuel: • Fuel Tank Capacity Show 5.3

• Fuel Gauge Show ✓

Mower Light Kit: ✓

Cutting Width: 62"

Power Steering: ✓

On Board Backlapping: ✓

Traction and Drive:

- What type of Traction Drive: Hydrostat
- What type of Reel Drive: Hydraulic
- Hydraulic System: ✓
- Type of Hydraulic Oil: Hyguard
- Height of cut Range: .075 - 1.25"
- Cutting Frequency: Variable
- Reels and Blades, number and size: 11 blade 22"
- Hydraulic Leak Detection System: Can. be added \$1500

Hour Meter Comply ✓

Mowing Speed: 0-6 MPH

Transport Speed: 11 MPH

Technical Service Manual Comply ✓

TRAINING ON HOW TO USE: ✓

All freight and on-site pre-charges should Comply/Show ✓

Delivery Requirements

Exact delivery date to be determined. The City of Pryor Creek would prefer to take delivery as soon as possible.

Service Requirements

Supplier must have a service technician available for necessary repairs within 48 hours for any breakdown which is due to the mechanical failure of any warranty part or equipment. Compy Yes or No ✓

Show Warranty Parts and Labor: 2 years

BID PROPOSAL – SUBMITTAL PAGE

EQUIPMENT FOR PRYOR CREEK GOLF COURSE

ITEM # TYPE OF EQUIPMENT COST PER UNIT TOTAL COST

1 Golf Riding Greens Mower (Gas) \$ 34,459.50

2700 PrecisionCut™

Triplex Mower

- 19 hp* (14.2 kW) EFI Gas engine w/ electronic throttle control
- Same cut quality, regardless of operator
- TechControl advanced supervisory controls
- Exclusive Frequency of Clip mode
- Premium Contour Following

[Find a Dealer](#)

Features

[Collapse All](#)

- Consistent cut quality, regardless of operator

As a superintendent/greenkeeper, turf manager, equipment manager, or other supervisor responsible for golf course maintenance, there are many aspects you are judged on every single day. Some that stand out include:

- Quality of turf and overall playing conditions
- Consistency from hole to hole (or area to area)

Golfers expect the highest level of playing conditions every time they play, and they expect hole #1 to play the same as hole #18. Over the years, those demands have increased as they continue to see picturesque tournaments on television.

However, one of the toughest challenges in the industry today is labor. With unemployment rates at very low levels and wages increasing, it is difficult to find labor, and when you do find it, it's often unskilled. Skilled, experienced operators can typically provide the daily quality that you are seeking. However, how do you take those new, less-skilled operators and make them perform like a 20-year veteran? For some, they may have never worked on a golf course before or may have limited general equipment operating experience.

Operator view of TechControl display

Passcode protection within TechControl

That's where the 2700 and 2750 PrecisionCut™ and E-Cut™ Hybrid Triplex Mowers can to help. The key is the advanced TechControl display, which allows you to enter a multitude of operating parameters to gain more control over your operators' performance. In addition, the TechControl display is passcode

protected, meaning that operators cannot do anything to override the settings that you have programmed without having the passcode. The operator can see limited information to operate the machine, such as:

- Operating mode (park, transport, mow)
- Fuel level
- Hour meter
- Warning indicators/alarms

No matter how many machines you have, if you set them all up the same, they will all perform the same regardless of operator.

— Increased level of supervisory control with advanced passcode-protected TechControl display

As a turf professional responsible for your course, there's a certain level of care you would take if you were operating a triplex mower yourself. The advanced TechControl display on the 2700 and 2750 PrecisionCut™ and E-Cut™ Hybrid Triplex Mowers allows you to build a similar level of care into how your operators are allowed to mow. It also allows newer operators to match the cut quality and consistency of veteran operators by putting you in control of key performance characteristics.

Advanced TechControl display

TechControl display location

As a trusted supervisor, the passcode-protected TechControl display allows you to control a range of operating parameters, including:

- Reel operating modes
- Frequency of clip
- Engine operating modes
- Maximum mowing speed
- Cruise control
- LoadMatch™ speed setting
- Turn speed

- Maximum transport speed
- Cleanup pass speed
- Cutting unit lift rates
- Cutting unit drop rates
- Cutting unit front-to-rear timing

By giving you control of the operating parameters that operators must stay within, the result is better, more consistent cut quality and overall playing conditions. In addition, you get improved consistency from hole to hole, regardless of which operator is operating the machine. The passcode protection helps prevent operators from overriding any of the parameters that have been set, giving you more control over the performance of each operator.

— Walk Greens Mower-like cut quality with frequency of clip control

For many years, John Deere fixed-head walk greens mowers have featured automatic frequency of clip control. Due to the chain drive system linking the traction drum to the reel, the same frequency of clip is maintained at all ranges of the engine throttle. At higher engine speeds, the reel speeds up in proportion to the increased speed of the traction drum. At lower engine speeds, the reel slows down in proportion to the traction drum. What this means is the same frequency of clip is maintained from machine to machine and operator to operator, regardless of the engine throttle position.

With labor availability becoming more of a challenge, recent industry trends show more courses going back to triplex mowers on greens to increase productivity.

But can a triplex match the cut quality of a walk behind? With the Frequency of Clip mode within the TechControl display on all 2700 and 2750 PrecisionCut™ and E-Cut™ Hybrid Triplex Mowers, that level of cut quality can be achieved regardless of the operator. In fact, the 2700 and 2750 PrecisionCut Triplex Mowers are the only hydraulic reel drive triplex mowers in the industry that can control frequency of clip.

Frequency of Clip mode	Frequency of Clip setup screen
------------------------------	---

Within the passcode-protected TechControl display, the supervisor has the ability to select Frequency of Clip mode. After pressing the menu button, the supervisor enters the following parameters:

- Number of blades on the reel
- Reel speed
- Mow speed

Based on these parameters, the machine will calculate and display the frequency of clip that the machine will target to achieve. If there is a certain frequency of clip you desire, simply change the mow and reel speeds to find that setting. Or, you may decide that a different reel blade count is required to get the frequency of clip that you want to achieve. Once you exit the setup screen, the parameters are set for the operator to mow.

The mow speed that is set is the maximum mowing speed that the operator can mow at. A veteran operator may choose to mow at the maximum mowing speed, while a newly trained operator may elect to mow slower by not fully depressing the pedal.

However, the frequency of clip does not change on the 2700 and 2750 Triplex Mowers based on these different mowing speeds. It is maintained regardless of ground speed. The reel speed automatically adjusts to the requested ground speed from the foot pedal. Even though a newly trained operator may mow at a reduced speed, the reels slow down automatically in proportion to maintain the same frequency of clip as an experienced operator. This means consistent cut quality from hole to hole all day long, regardless of the operator.

For all 2700 and 2750 PrecisionCut and E-Cut Hybrid Triplex Mowers, the reel speed sensor and foot pedal position sensor communicate with one another to maintain frequency of clip. The foot pedal position sensor indicates the requested

ground speed from the operator, and the reel speed automatically adjusts accordingly. Wheel speed sensors in the hydraulic wheel motors communicate with the eHydro™ system to match the actual ground speed to the requested ground speed.

— Budget and operator-friendly Eco mode

Within the advanced TechControl display, you can run the engine in Eco mode for general mowing conditions, especially on greens. In Eco mode, the engine will run at 2250 rpm with the power take-off (PTO) engaged. As load demand increases due to conditions such as lush grass or climbing a hill, the engine speed can increase to as much as 2700 rpm. It all happens automatically without any operator input other than engaging the mow switch.

Eco mode
in the
TechControl
display

A passcode must be entered to select the engine mode that you want the operator to use. Once Eco mode has been selected, there is nothing the operator needs to do to activate it. Also, there is nothing the operator can do to mow outside of Eco mode. Once the mow switch is engaged, the engine will automatically go to 2250 rpm. As additional load is encountered, the engine rpm will automatically increase without any input from the operator.

Eco mode is friendly to the operating budget, as well as the operator. In this mode, you will see up to 30 percent reduction in fuel consumption, and up to a 5 dB(A) reduction in sound levels (depending on the model). It also works across all 2700 and 2750 PrecisionCut™ and E-Cut™ Hybrid Triplex Mowers. Fuel savings and noise reduction are no longer reserved for hybrid machines.

Some of the highest load conditions are cold mornings where the hydraulic oil has not yet come up to operating temperature. In these conditions, the hydraulic

oil temperature sensor integrates with Eco mode to ensure there is power available to handle the task. This smart system will quickly bring the oil up to operating temperature by:

- Increasing engine rpm to 3000
- Shutting off diverter valve
- Shutting off engine cooling fan

As the oil reaches certain temperature thresholds, the diverter valve will be enabled, the cooling fan will be turned back on, and the engine will return to normal Eco speed (2250 rpm). Normal Eco operation will resume once the hydraulic tank temperature is 50°C (122°F).

— Excellent cut quality in undulations and perimeters using three-axis contour following system

Triplex mowers are some of the most versatile reel mowers around and mow in a wide variety of applications where quality of cut on contours can be a challenge, including:

- Greens
- Tees
- Fairways
- Approaches
- Surrounds

In these challenging conditions, a triplex mower must be able to handle not only the upward and downward contours, but also side-to-side rolling terrain and perimeter cuts. Contour following is an area where the 2700 and 2750 PrecisionCut™ and E-Cut™ Hybrid Triplex Mowers truly excel.

With its innovative three-axis lift system, the 2700 and 2750 Triplex Mowers are packed full of contour following capability, including:

- 42 degrees of upward and downward movement (21 degrees upward, 21 degrees downward)
- 36 degrees of lateral roll movement (18 degrees each direction)
- 36 degrees of front cutting unit steering (18 degrees each direction)
- 17 degrees of rear cutting unit steering (8.5 degrees each direction)

All of this built-in capability ensures excellent cut quality on tough contours and tight perimeters.

Cutting
unit
contour
following
system

The system consists of a series of ball joints, sealed bearings, and non-metallic bushings, providing excellent reliability and durability. Best of all, the system is completely maintenance free with zero grease points. There are three independent lift cylinders, and the lift/lower valve goes into float when the cutting units are lowered to allow for the contour following system to do its job.

Weight
transfer
spring

Spring	Spring
in	in
forward	rearward
position	position

An integrated weight transfer spring for each cutting unit helps transfer weight from the cutting unit to the traction unit. These springs do an excellent job in minimizing opportunities for marking and step cutting in turns, providing a high level of cut quality in perimeters. There are two operating positions for this spring: a forward position and a rearward position. In most conditions and applications, the spring will be operated in the forward position. This will transfer approximately 18 kg (40 lb) from the cutting unit onto the traction unit. In more aggressive undulations where quicker contour following response is needed, the rearward position can be used, which reduces the weight transfer by 4.5 kg (10 lb).

Cutting
unit
steering
limiters

The 18 degrees of steering is very important, especially on greens, for maintaining high levels of cut quality in turns and in perimeter passes. The system allows the cutting units to steer as the machine steers, helping to minimize opportunities for scalping while maintaining a consistent height of cut. In combination with the weight transfer springs, the steering system helps provide consistent quality of cut with less opportunities for marking and step cutting in cleanup passes.

Steering	Steering
limiters	limiters
disengaged	engaged

However, there are some situations where you may not want as much cutting unit steering, such as highly undulating terrain in fairways, surrounds, and approaches. The standard cutting unit steering limiters provide the capability for the supervisor to lock out the cutting unit steering system to reduce the opportunity for uncut strips. This system provides flexibility to limit steering both in the inward and outward directions independently. With the limiters on both sides disengaged, they allow for full steering of the cutting unit. When engaged on the front cutting units (as shown), steering is limited to 9 degrees, or in combination with moving two washers, steering can be completely locked out to 0 degrees. Engaging the steering limiters on the rear cutting unit completely locks out the steering to 0 degrees.

A dual chain attaching system makes sure the cutting unit is square to the turf at all times during the lift and lower cycle and helps to maintain cutting unit stability when mowing hillsides. This can minimize any potential marking on cutting unit drop. The patented position of the lateral roll axis of the contour following system is close to the center of gravity of the cutting unit, keeping the cutting units very stable in transport.

— Accessible, easy-to-use grass catchers on the open platform

Grass catchers must be easily accessible for the operator, easy to use, and retain grass clippings both in mow and transport. The grass catcher system on the 2700 and 2750 PrecisionCut™ and E-Cut™ Hybrid Triplex Mowers delivers on all of these requirements.

Open station platform

An open station platform provides easy access to every grass catcher, including the rear grass catcher. All three grass catchers can be easily removed and installed with one hand, and an adjustable grab handle can be installed in a fore/aft or side-to-side orientation for the operator's preference.

Grass catcher hook design

One of the challenges with grass catchers is designing them to be easy to remove and install, but without sacrificing their ability to stay on while encountering bumpy terrain in transport. An innovative hook design on the grass catchers of the 2700 and 2750 Triplex Mowers changes this from a design tradeoff to a reality. To remove the grass catcher, the operator simply pushes the grass catcher toward the operator's station and lifts upward. Pushing in overcomes the notch in the hook and allows the grass catcher to be removed. During transport, the notch in the hook helps secure the catcher in rough terrain.

Traditional	Translucent
black	yellow
grass	grass
catcher	catcher

Grass catchers are offered in either translucent yellow or traditional black. The translucent yellow offers several advantages:

- The on-course supervisor can see clippings in the catcher and direct operators to empty catchers as needed.
- The operator has better visibility to clippings in catcher to know when to empty catchers.
- Catchers are easier to see in early morning and late evening conditions for better visibility of pass-to-pass overlap and edges of perimeter cuts.

Asymmetrical
design and
air vent

All grass catchers feature an asymmetrical design, meaning that the left-hand side of the catcher is slightly larger than the right side. The reason for this is that due to the helical shape of the reel, the grass clippings always move to the left. In traditional grass catchers with symmetrical designs, this means that the clippings tend to pile up more in the left side of the catcher and can lower the effective height of cut on the left-hand side relative to the right-hand side, leading to step cutting as the catcher fills. This innovative design evens out the flow of clippings side to side, minimizing the opportunity for step cutting or scalping as the catcher fills up with clippings.

A deep air flow vent is molded into the top of the catcher to help make sure that clippings coming from the reel go into the catcher and stay in the catcher.

The grass catcher system on the 2700 and 2750 is an excellent blend of performance and ease of use without sacrifices.

- Lower operating costs using a KOHLER® air-cooled gas engine with electronic fuel injection (EFI)

Kohler

EFI

gas

engine

To maximize fuel economy and lower operating costs, the 2700 PrecisionCut™ and E-Cut™ Hybrid Triplex Mowers feature a KOHLER Command PRO® EFI ECH630 air-cooled gasoline engine. Engines featuring EFI technology operate more efficiently than carbureted engines, saving fuel while in both mow and transport mode. This V-twin engine offers 14.2 kW (19 hp) gross power (per SAE J1995 at 3600 rpm) for plenty of power while operating in a wide range of conditions, including verticutting.

In Eco mode, sensor technology within the engine automatically adapts the engine speed to the load required, improving fuel economy by delivering the precise amount of fuel required based on the load conditions encountered. An electronic throttle body controls the air on the intake side, which allows for optimized power production and a fast load response.

For the operator, the EFI engine offers an easy-to-use starting system that operates just like a car and does not require a choke. Simply turn the key; the engine will start, and the operator is ready to go.

In combination with the electronically controlled engine, the 2700 PrecisionCut and E-Cut Hybrid Triplex Mowers also feature the AutoPedal™ system. This feature ties the ground speed and the engine speed together in transport, meaning a more car-like operation. With the foot pedal not activated, the engine will operate at idle, saving fuel. When transporting, the further the operator pushes the traction pedal, the higher the engine speed and the higher the travel speed.

KOHLER and Command PRO are trademarks of Kohler Co.

— Minimize potential marking in turns with Turn Speed setting

Within the advanced TechControl display, you can control how fast your operators are able to turn at the end of a pass on the 2700 and 2750 PrecisionCut™ and E-Cut™ Hybrid Triplex Mowers. This feature, called Turn Speed, is a passcode-protected setting that the operator does not have access to and is adjustable independent of mowing speed.

Turn Speed
in the
TechControl
display

By limiting how fast the operator can turn once the reels are raised, you can expect less opportunities for scuffing or marking in turns, improving overall aftercut appearance and turf quality. Turn Speed automatically engages and goes to the preset speed in mow when the cutting units are lifted at the end of a pass. Once the reels are lowered again to begin mowing, the speed automatically goes back to mow speed.

Typically, supervisors will want to set the turn speed to lower than the mow speed, especially on greens and other areas with tighter turns. However, for applications such as fairways where turns may be longer, you can set the turn speed to be as high as 9.7 km/h (6 mph) to increase productivity. By allowing the turn speed to be adjusted independently of mow speed, the supervisor has the flexibility to adjust for conditions, terrain, and productivity.

Turn Speed is an innovative system on the 2700 and 2750 PrecisionCut and E-Cut Hybrid Triplex Mowers that reads both wheel speed sensors. When the system detects a tight turn by seeing a large difference in speed between the outside and inside wheel motors, it automatically compensates to make the turn speed even more gentle, providing less opportunities for marking and scuffing of the turf. As with all of the other settings within the advanced TechControl display, the influence of the operator is minimized, providing better, consistent results from operator to operator.

— Accurate, crisp cleanup cuts provided by innovative Cleanup Pass mode

Ask almost any operator what their biggest challenge when mowing is, and many will tell you it is accurately mowing the perimeters. It’s an area where the slightest mistake is easily seen, such as scalps from going too far into the collar or an uneven cut by staying too far inward from the edge. On many triplex mowers today, this is a challenge because the operator has to not only focus on site lines and steering, but also feathering the traction speed as most operators cannot accurately mow a perimeter at full speed. What happens is that operators want to avoid scalps, and the areas they mow tend to get smaller over time.

Cleanup
Pass
mode
setting
screen

The 2700 and 2750 PrecisionCut™ and E-Cut™ Hybrid Triplex Mowers provide an innovative solution with the Cleanup Pass mode within the advanced TechControl display. The ability to set the speed is within the passcode-protected portion of the display, and the supervisor can set the specific cleanup pass speed.

Cleanup	Cleanup
Pass mode	Pass
disengaged	mode
	engaged

To operate the Cleanup Pass mode, the machine must be in mow and the park brake disengaged. The language symbol will change to a drawing of a green. When the operator is ready to mow the perimeter, they simply press the button under the green symbol on the TechControl operating screen, and the machine will go to a reduced cleanup speed. This sets a new, reduced maximum mowing speed without having to feather the pedal. Once the operator completes the cleanup pass, simply lifting the reels automatically disengages Cleanup Pass

mode to ensure that the next green is not mowed at a slower speed.

Cleanup Pass mode can be engaged on-the-go with the reels in either the raised or lowered position. The operator is not required to let off of the forward pedal at all. If the pedal is already pushed to its maximum mowing speed, pressing the button to engage Cleanup Pass mode automatically reduces the traction speed.

The Cleanup Pass mode can work in combination with Frequency of Clip mode, and when the two are used together, the reels automatically slow down when Cleanup Pass mode is engaged to keep the clip rate the same.

The benefit to the operator is improved ease of use. They no longer have to feather the pedal to find the right cleanup speed. Their main focus becomes steering and sight lines. The benefit to the superintendent, equipment manager, or other trusted supervisor is an improved quality of cut and improved consistency of playing surfaces regardless of the operator, as well as a nice, crisp, accurate perimeter cut.

— Easy access to center cutting unit for servicing with no-tool removable foot platform

One of the challenges of an open station design is access to the center cutting unit for servicing, whether accessing adjustments such as height of cut and bedknife to reel or removing the cutting unit for repair or reel grinding.

On the technician-friendly 2700 and 2750 PrecisionCut™ and E-Cut™ Hybrid Triplex Mowers, the front platform is easily removed from the machine without tools and offers a convenient storage location in front of the steering column that can be used during service.

U- Foot
shaped platform
clip storage
 location

The foot platform is cast aluminum and weighs only 4.5 kg (10 lb). To remove it from the front of the machine, simply pull on the U-shaped pin on the bottom side of the platform on the foot pedal end. Then, lift up on the platform and pull it forward and away from the machine. The storage location is most easily accessible with the steering column tilted as far toward the seat as possible.

Foot
platform
removed

Removing the platform allows for complete access to the center cutting unit, providing plenty of room for easy servicing. It is not necessary to remove the foot platform to remove the center grass catcher, only when servicing the center cutting unit.

WARRANTY FOR NEW JOHN DEERE GOLF & TURF EQUIPMENT (US & Canada Only)

A. GENERAL PROVISIONS - With respect to purchasers in the United States, "John Deere" means Deere & Company, 1 John Deere Place, Moline, IL 61265 and with respect to purchasers in Canada, "John Deere" means John Deere Canada ULC, 295 Hunter Road, P.O. Box 1000, Grimsby, Ontario L3M 4H5. The warranties described below are provided by John Deere to the original purchasers of new John Deere Golf and Turf equipment ("Equipment") purchased from John Deere or an authorized John Deere dealer or distributor ("Selling Dealer"). These warranties apply only to Equipment intended for sale in the United States and Canada. Under these warranties, John Deere will repair or replace, at its option, any part covered under these warranties which is found to be defective in material or workmanship during the applicable warranty term. Warranty service must be performed by a dealer, distributor or service center authorized by John Deere to sell and/or service the type of equipment involved ("Authorized Dealer"). The Authorized Dealer will use only new or remanufactured parts or components furnished or approved by John Deere. Warranty service will be performed without charge to the purchaser for parts and/or labour. However, the purchaser will be responsible for any service call and/or transportation of Equipment to and from the Authorized Dealer's place of business (except where prohibited by law), for any premium charged for overtime labour requested by the purchaser and for any service and/or maintenance not directly related to any defect covered under these warranties. These warranties are transferable, provided an Authorized Dealer is notified of the ownership change, and John Deere approves the warranty transfer.

B. WHAT IS WARRANTED - Subject to section C, all parts of any new Equipment are warranted for the number of months or operating hours specified below. Each warranty term begins on the date of delivery of the Equipment to the original purchaser.

EQUIPMENT	WARRANTY TERM
1) Aerators: 800, 1000, 1500, 2000*	24 Months/Unlimited Hours
2) Bunker Rakes: 1200A, 1200 Hydro Rake*	
3) Debris Maint: TC125* Collection System	
4) Reel Mowers: 180, 220, 260, 2500, 2653, 7000 & 8000 Series*	
5) Rotary Mowers: 7000, 8000 & 9000 Series*	
6) Frontier Equipment™ Reel Grinder: RG5000, RG5500*	
7) Frontier Equipment™ Bedknife Grinder: BG1000, BG1500*	
8) Walk Greens Mower Trailers: 22 Series*	
9) ProGator™: 2020A, 2030A	24 Months/1500 Hours, whichever comes first
10) Turf Gator™: Turf, TX Turf	
11) Sprayer: HD200, HD300	
12) Top Dresser: TD100	
13) E-Gator™: E Gator, TE Gator	

*Including compatible implements/attachments

C. (I) ITEMS COVERED SEPARATELY - Unless listed in the applicable parts catalog, this warranty does not apply to (1) Batteries; (2) Radios; (3) Tires; and (4) Sprayer Controllers which are covered by separate written warranties.

(II) WHAT IS NOT WARRANTED - Pursuant to the terms of these warranties, JOHN DEERE IS NOT RESPONSIBLE FOR THE FOLLOWING: (1) Used Equipment; (2) Any Equipment that has been altered or modified in ways not approved by John Deere, including, but not limited to, setting injection pump fuel delivery above John Deere specifications; (3) Depreciation or damage caused by normal wear, lack of reasonable and proper maintenance, failure to follow operating instructions/recommendations; misuse, lack of proper protection during storage, vandalism, the elements or collision or accident; (4) Normal maintenance and replacement of maintenance and wear items, such as oil, filters, coolants and conditioners, blades and other cutting/mowing parts, belts, brake and clutch linings, spark plugs, hoses, tires and batteries.

D. SECURING WARRANTY SERVICE - To secure warranty service, the purchaser must, (1) Report the Equipment defect to an Authorized Dealer and request warranty service within the applicable warranty term; (2) Present evidence of the warranty start date with valid proof of purchase; and (3) Make the Equipment available to the Authorized Dealer within a reasonable time.

E. NO IMPLIED WARRANTY, REPRESENTATION OR CONDITION - To the extent permitted by law, neither John Deere nor any company affiliated with it makes any warranties, representations, conditions or promises, express or implied, as to the quality, performance or freedom from defect of the Equipment covered by these warranties other than those set forth above, AND NO STATUTORY OR IMPLIED WARRANTIES OR CONDITIONS OF MERCHANTABILITY OR FITNESS ARE MADE. TO THE EXTENT LEGALLY REQUIRED, ANY IMPLIED WARRANTIES OR CONDITIONS SHALL BE LIMITED IN DURATION TO THE APPLICABLE PERIOD OF WARRANTY SET FORTH ON THIS PAGE. THE PURCHASER'S ONLY REMEDIES IN CONNECTION WITH THE BREACH OR PERFORMANCE OF ANY WARRANTY ON JOHN DEERE EQUIPMENT ARE THOSE SET FORTH ON THIS PAGE. IN NO EVENT WILL THE DEALER, JOHN DEERE OR ANY COMPANY AFFILIATED WITH JOHN DEERE BE LIABLE FOR INCIDENTAL OR CONSEQUENTIAL DAMAGES.

F. NO DEALER/DISTRIBUTOR WARRANTY - THE SELLING DEALER HAS NO AUTHORITY TO MAKE ANY WARRANTY, REPRESENTATION, CONDITION OR PROMISE ON BEHALF OF JOHN DEERE, OR TO MODIFY THE TERMS OR LIMITATIONS OF THIS WARRANTY IN ANY WAY AND MAKES NO WARRANTY ON ANY OTHER ITEM UNLESS IT DELIVERS TO THE PURCHASER A SEPARATE WRITTEN CERTIFICATE SPECIFICALLY WARRANTING THE ITEM.

Comments:

For all New Equipment, Demo units may be available for up to 20% savings.
 For all New Equipment, Refurbished units may be available for up to 40% savings.

Terms & Conditions:

- Orders are considered contractual. Order cancellations are subject to fees up to 10% of the original order value.
- New equipment delivery time is estimated at six weeks from the time credit is approved & documents are executed.
- Pricing, including finance options, valid for 30 days from time of quotation.
- Payments by Credit Card are subject to convenience fee.
- After 30 days all prices are subject to change without notice.
- Used and Demo equipment is in high demand and availability is subject to change.
 - Upon firm customer commitment to purchase, said equipment availability will be determined and "locked".
 - In the event equipment is unavailable at time of order, PTP will employ every resource to secure an acceptable substitute.
 - PTP strongly advises the customer to issue a firm PO as quickly as possible after acceptance of quotation.
- "Trade In Allowances" will be treated as a credit for future parts purchases on PTP account unless other arrangements have been made.

Returns Policy:

- All returns are subject to restocking, refurbishing, usage, and shipping fees.
- All returns must be able to be sold as new.

B. Proposals must include:

- a. Cover Letter: signed by the proposing representative authorized to make contractual obligations.
- b. Reference List including current and former clients with contact information. (The City of Pryor Creek may, at its option, contact any of the above or known clients of yours for references.)
- c. All warranty information regarding Rough Mower.

**WARRANTY FOR NEW JOHN DEERE AGRICULTURAL EQUIPMENT AND
LIMITED WARRANTY FOR NEW TURF & UTILITY EQUIPMENT (US & CANADA ONLY)**

A. GENERAL PROVISIONS – With respect to purchasers in the United States, "John Deere" means Deere & Company, 1 John Deere Place, Moline, IL 61265, and with respect to purchasers in Canada, "John Deere" means John Deere Canada ULC, 295 Hunter Road, P. O. Box 1000, Grimsby, Ontario L3M 4H5. The warranties described below are provided by John Deere to the original purchasers of new Agricultural, Turf and Utility Equipment ("Equipment") purchased from John Deere or authorized John Deere dealers (the "Selling Dealer"). These warranties apply only to Equipment intended for sale in Canada and the US. Under these warranties, John Deere will repair or replace, at its option, any part covered under these warranties which is found to be defective in material or workmanship during the applicable warranty term. Warranty service must be performed by a dealer or service center located in Canada or the US, and authorized by John Deere to sell and/or service the type of Equipment involved (the "Authorized Dealer"). The Authorized Dealer will use only new or remanufactured parts or components furnished or approved by John Deere. Warranty service will be performed without charge to the purchaser for parts and/or labor. However, the purchaser will be responsible for any service call and/or transportation of Equipment to and from the Authorized Dealer's place of business (except where prohibited by law), for any premium charged for overtime labor requested by the purchaser and for any service and/or maintenance not directly related to any defect covered under these warranties. These warranties are transferable, provided an authorized John Deere dealer is notified of the ownership change, and John Deere approves the warranty transfer.

B. WHAT IS WARRANTED – Subject to paragraph C, all parts of any new Equipment are warranted for the number of months or operating hours specified below. Each warranty term begins on the date of delivery of the Equipment to the original purchaser, (except for certain agricultural tillage, planting, cultivating, harvesting, and application Equipment which may have a delayed warranty start date, but only if established by John Deere and noted by Selling Dealer on the Purchase Order). **Included In 5E Series Tractor and Compact Utility Tractor Powertrain Warranty - Engine:** cylinder block, cylinder head, valve covers, oil pan, emissions control components, timing gear covers, flywheel housing, and all parts contained therein. **Powertrain:** transmission, transmission case, differential and axle housings, clutch housings, MFWD front axle assembly, and all parts contained therein (does not include external drivelines, dry clutch parts, or steering cylinders). **SWEEPS, SHOVELS, PLOWSHARES, AND DISK BLADES:** A replacement part will be furnished without charge if breakage occurs and the amount of wear is less than the wear limits established by John Deere.

AGRICULTURAL EQUIPMENT	WARRANTY TERM

**Implements/Attachments purchased on the same Purchase Order as the Equipment listed will be covered by the Equipment's warranty terms. Implements/Attachments purchased separately will be covered by the warranty term on line 14.

C. (I) ITEMS COVERED SEPARATELY – (1) Tires, rubber tracks and batteries; (2) John Deere Hand Held-Portable products; (3) John Deere Walk Behind Snowthrowers; (4) When applicable, a separate emissions warranty statement will be provided by Selling Dealer.

(Effective November 1, 2018)

(II) WHAT IS NOT WARRANTED – Pursuant to the terms of these warranties, JOHN DEERE IS NOT RESPONSIBLE FOR THE FOLLOWING: (1) Used Equipment; (2) Any Equipment that has been altered or modified in ways not approved by John Deere, including, but not limited to, setting injection pump fuel delivery above John Deere specifications, modifying combine grain tanks, and modifying self-propelled sprayers with unapproved wheels, tracks, tanks or booms; (3) Depreciation or damage caused by normal wear, lack of reasonable and proper maintenance, failure to follow operating instructions/recommendations; misuse, lack of proper protection during storage, vandalism, the elements or collision or accident; (4) Normal maintenance parts and/or service, including but not limited to, oil, filters, coolants and conditioners, cutting parts, belts, brake and clutch linings; (5) Any Utility Vehicle used for racing or other competitive purpose; (6) Chains on Premium Balers.

D. SECURING WARRANTY SERVICE – To secure warranty service the purchaser must, (1) Report the Equipment defect to an Authorized Dealer and request warranty service within the applicable warranty term; (2) Present evidence of the warranty start date with valid proof of purchase; and (3) Make the Equipment available to an Authorized Dealer within a reasonable time.

E. NO IMPLIED WARRANTY, REPRESENTATION OR CONDITION – To the extent permitted by law, neither John Deere nor any company affiliated with it makes any warranties, representations, conditions or promises express or implied as to the quality, performance or freedom from defect of the Equipment covered by these warranties other than those set forth above, AND NO STATUTORY OR IMPLIED WARRANTIES OR CONDITIONS OF MERCHANTABILITY OR FITNESS ARE MADE TO THE EXTENT LEGALLY REQUIRED, ANY IMPLIED WARRANTIES OR CONDITIONS SHALL BE LIMITED IN DURATION TO THE APPLICABLE PERIOD OF WARRANTY SET FORTH ON THIS PAGE. THE PURCHASER'S ONLY REMEDIES IN CONNECTION WITH THE BREACH OR PERFORMANCE OF ANY WARRANTY ON JOHN DEERE EQUIPMENT ARE THOSE SET FORTH ON THIS PAGE. IN NO EVENT WILL THE DEALER, JOHN DEERE OR ANY COMPANY AFFILIATED WITH JOHN DEERE BE LIABLE FOR INCIDENTAL OR CONSEQUENTIAL DAMAGES. (Note: Some jurisdictions do not allow limitations on how long an implied warranty lasts or the exclusion or limitation of incidental or consequential damages so the above limitations and exclusions may not apply to you.) In the event the above warranty fails to correct purchaser's performance problems caused by defects in workmanship and/or materials, purchaser's exclusive remedy shall be limited to payment by John Deere of actual damages in an amount not to exceed the amount paid for the Equipment. This warranty gives you specific legal rights, and you may also have other rights which vary from jurisdiction to jurisdiction.

F. NO DEALER WARRANTY THE DEALER HAS NO AUTHORITY TO MAKE ANY WARRANTY, REPRESENTATION, CONDITION OR PROMISE ON BEHALF OF JOHN DEERE, OR TO MODIFY THE TERMS OR LIMITATIONS OF THIS WARRANTY IN ANY WAY.

G. If further information is desired, contact Selling Dealer or John Deere at 1-866-993-3373 (Agricultural) or 1-800-537-8233 (Turf & Utility Equipment).

Association*

December 16, 2019

City of Pryor
P O Box 1167
Pryor OK 74362

It is again time to appoint or reappoint your representative to the Grand Gateway Board of Directors for 2020.

Appointments are made each year during the month of January, and representatives will serve for a period of one year, beginning February 1. Meetings are held every other month, and Board members are reimbursed for transportation to and from the meetings. Officers of the Association will be elected from among the members at the February meeting.

The City of Pryor, in Mayes County, is a member of the Association and eligible to have **one** representative on the Grand Gateway Board of Directors. Any additional representative named will be considered an alternate. This can be accomplished at your next city meeting. The representative may or may not be a member of your governing body.

Your current representative is: Larry Lees

You are requested to take this action, complete and sign the enclosed form and return it no later than **January 20, 2020**, in the self-addressed, stamped envelope enclosed for your convenience.

If you have questions, you may call me at 1-800-482-4594 ext. 235.

Sincerely,

Mary Satterwhite
Grand Gateway Board Clerk

Enclosures

**APPOINTMENT OF REPRESENTATIVE
TO
THE BOARD OF DIRECTORS
GRAND GATEWAY ECONOMIC DEVELOPMENT ASSOCIATION**

The Senior Official of the various incorporated municipalities, located within the same county, with a population below 4,000, who are signatories of the Joint Resolution and Agreement creating the Grand Gateway Economic Development Association, during the month of January each year, shall jointly appoint an individual to represent them on the Grand Gateway Board of Directors. The individual may or may not be a member of a governing body.

The Municipality of _____, County of _____, Oklahoma, jointly with other members as set forth above, appointed the following individual to represent them on the Grand Gateway Board of Directors to serve for a period of one (1) year, beginning February 1, 20____.

Service Call 19-36883 TCW: OIL LEAK

Description of Work 9/12/2019 1:19:22 PM Wiggins, Russell]
traveled to site to check generator is leaking oil. trouble shot and found oil filter adapter is leaking . need to be replaced.i talked to the chief and he said to order parts and fix the generator.

[9/19/2019 6:37:45 AM Gilpin, Hunter]
Drove to site and checked in with the customer, gained access to the unit, found sent with wrong part, sent with the oil filter housing and not the adapter or seals for the adapter, took everything apart and cleaned, tired to reseal adapter and was unable. got with the parts team and they are ordering the adapter and the seals and fittings for the adapter. left the unit disabled. notified the customer that the unit is still down. job is not completed Waiting for parts.

[11/25/2019 6:26:33 PM Hill, Levi]
traveled to site, replaced parts that were pulled for job, found that unit is actually leaking oil from the timing case cover and needs a new timing case cover gasket, left unit in off and disabled
